FRONTEND SOFTWARE ENGINEER

Frontend Software Engineer with 5+ years of experience building interactive, user-centric web applications using **JavaScript**, **TypeScript**, **React**, **Redux**, **HTML**, and **CSS**. Skilled in both collaborative team environments and independently driving projects from concept to deployment. Passionate about continuous learning and excited to contribute to innovative, impactful products that solve real-world problems.

SKILLS

Frontend Development: JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, Next.js, Redux, Context API, RTK Query, React Router, Tailwind CSS, Material UI, SASS, Axios, GraphQL, React Testing Library, Jest, Cypress, Chrome DevTools, WCAG.

Backend and DevOps: Node.js, Express.js, REST APIs, MongoDB, MySQL, Firebase, Amazon Web Services (AWS), JWT, OAuth 2.0, Okta, CI/Cd

Other: CI/CD, Vite, Babel, Webpack, Agile, Jira, Figma, Object-Oriented Programming (OOP)

PROFESSIONAL EXPERIENCE

Ticketmaster, Los Angeles, CA | Frontend Software Engineer | 04/2022 – Present

- Developed intuitive, responsive web interfaces for TM1 Event Creation & Management platform, enabling event organizers to manage promotional offers for **100,000+ events annually**.
- Built and maintained reusable **React components and custom hooks**, established a scalable front-end architecture, **reducing new feature development time by 40%**.
- Implemented interactive workflows for offer creation and editing, including template selection, category filtering, and configurable sales channels, improving usability and **reducing setup time by 25%**.
- Improved application performance through **lazy loading**, **code splitting**, and optimized state management with **Redux** and **Context API**, reducing load times LCP from 3.5s to 2.4s.
- Enhanced accessibility by implementing **WCAG 2.1** and **WAI-ARIA** standards, decreasing accessibility issues by 60% and improving inclusivity across the platform.

MadDevs, Kyrgyzstan | Frontend Software Engineer | 03/2020 – 04/2022

- Developed **50+ reusable** and user-friendly UI components using **React**, **JavaScript** delivering a responsive platform for 5+ universities and 1,000+ students in Vietnam.
- Implemented test-driven development practices with **Jest** and **React Testing Library**, achieving **95%** test coverage and significantly improving reliability and developer confidence.
- Collaborated with cross-functional teams using **Jira** and **Agile methodologies** to plan, develop, and deliver features on schedule, ensuring smooth alignment between front-end, back-end, and design teams.
- Contributed to full-stack feature development using **Node.js** and **MongoDB**, supporting user authentication, data modeling, and REST API integration for key platform functionality.

KPMG, Kyrgyzstan | Senior Consultant | 01/2018 – 03/2020

- Led and managed teams of **10–15 professionals**, coordinating project timelines, client communications, and quality delivery — building strong leadership, collaboration, and stakeholder management skills.
- Designed automated reporting tools and internal dashboards using **Excel** and **Power BI**, applying principles of clarity, data structure, and user-focused design, foundational to modern UI development.

EDUCATION

American University of Central Asia, Kyrgyzstan

BSc in Business Administration | Graduation Year 2018 | GPA: 3.75 / 4.00
